PISTOL GRIP

OVERVIEW

The VRF14 is the first semi-automatic short barrel firearm of its kind. It boasts a familiar pistol-style grip so you can shoot 12GA shells from the hip. And if the 5-round magazine isn't enough, it's also compatible with VR-Series 9- and 19-round mags. Tempting as it is, don't just stare at it. Add it to your collection now, while you still can.
